

DataTuff™ Fiber Optic Renewable Grade Cable

Rugged Fiber Optic Cable for Renewable Energy and Other Harsh Environment Applications

PRODUCT FLYER 

The Renewable Energy Market is evolving and searching for ways to reduce total cost of ownership of their cable plant. This fiber optic cable solution has Gel-Free constructions available and can be direct buried, which reduces cost.

- Rodent Resistant
- Direct Burial
- All Dielectric (Non-Conductive) Constructions Available; No Grounding and Separation From Power Needed
- Gel-Free Constructions Available
- Capacity Available for Great Lead Times

Available in the following constructions:

- [Central Loose Tube](#)
- [Multi-Loose Tube](#)
